Griff Asserts Cubs' Owner Is Detriment to Organized Baseball-Connie Mack of the Same Mind-Other Gossip.

When asked what he thought of the 1914 schedule of the American League Manager Griffith said:

"It's a good schedule: the best I have seen since I have been at the head of the local club. It suits us down to the ground. We will be at home early and late during the cool weather. I couldn't have doped out a better schedule, as far as our interests are concerned, myself.

late during the cool weather. I couldn't have doped out a better schedule, as far as our interests are concerned, myself.

A five-cornered fight now is being waged among the five cities that want to stage the Davis Tennis Cup matches this summer. Those cities are New York, Chicago, Boston, Pittsburgh, and Philadelphia.

The chances seem to favor New York. The Metropolitan tennis enthusiasts have been angling for the event since last summer, when the victory of the American team assured the match for this country. However, the four other cities have not given up hope and intend making a strong bid, for the honor when the United States Lawn Tennis Association looks over the situation with a view to naming the city.

As long as everybody else seems to be engaged in doing it, Martin Sheridan, New York policeman, and world's champlon all-around athlete in 1908, has decided to do a little "come back" himself. Sheridan has gone into training, and recently deciared he thinks he's just as good as ever and that he will

"Chasies Webb Murphy, owner of the Chicago Cubs should have been fired out of organized basebail long ago. The National League had a chance to rid themselves of this pest long ago, but did not do so. He is a detriment to organized basebail."

Thus spoke Manager Clark Griffith, of the Nationals last night, and by the way this is the first time he has ever uttered a statement or opinion against a National League club, since he became manager of the Washington team.

"Murphy is a detriment to the game for the reason that he allows his own personal feelings and petty jealousies to influence him. He made the mistake of his life when he got rid of Frank Chance, and the Evers case has just about brought things to a climax."

"I know something about the National League, and Murphy, for I handled the Chneinnati team three years. The sooner the older organization gets rid of Charley Murphy, the better off it will be," added the Old Fox.

No sooner had Griff unburdened himself than he was told of the interview from Philadelphia in which Connie Mack, who seldom raps a manager, roundly soored Murphy.

"Good for Mack," answered Griff, "he echoes my sentiments exactly.

New York, Feb. 14.—"We're in the game to stick, and it's only a question of time before organized baseball recognizes the Federal League." said President James Gilmore in talking over the prospects of his organization. Gilmore says that the players who make up the various clubs of his circuit are all men of big league and Class AA league experience. He cannot see any chance of the National and American leagues crushing out the Feds, and the hustling leader of the outlaws talks very convincingly on the subject.

To Build New Stands. President Gilmore announced that his local backers were prepared to ask im-mediately for bids on a steel and con-crete grand stand to seat 18,000 persons. He said that no steps had been taken toward securing a manager. John M. Ward, a practical baseball

man, and former star second baseman of the Giants, will be allowed to advise on the local situation. John M. would not say whom he had in view for the man-agement, but the names of Willie Keeler agement, but the names of Willie Keeler and Bill Dahlen were advanced by certain members of the Federal contingent. Charles Weeghman, Joe Tinker, and Charles Walke, the owners of the Chicago Federals, left on the Twentieth Century this afternoon. Ban Johnson was on the same train. In their absence, Mr. Gilmore did most of the talking for the "baby" league. He said that Brooklyn would be provided with a strong club. "We will be absolutely neutral," said he. "At the present time the players of only sews leagues—those of organized baseball which enjoys class A or higher distinction—are eligible to membership. As the Federal League ball, and his opinion ruled.

New York, Feb. H.—President Glimore and the other Federal League spirits have certainly made "monkeys" out of organized baseball magnates this week. The culmination of a series of surprises came in the announcement that a Federal club would operate in Washington Park, the old home of the Dodgera, this year.

President Glimore succeeded in interesting the Ward family (which is well known in the baking world and correctly possessed of unlimited dough) in the venture across the bridge.

slight upon Evers ability. But Sweeney and Hub Purdue are to be retained by the Braves. Murphy loses consequently on every count, his sole consolation be-ing an assurance from the national com-mission that he was mighty lucky to get such an able manager as Hank O'Day from the National League without pay-

ing for him.

The announcement that the Federals had invaded Brooklyn created no end of excitement in the ranks of organized baseball. The national comm mediately convened with those magnates who had remained and deliberated upon how best to meet this blow. It is said that the idea of placing an international League club in Ebbets' field was revived and that Ebbets was of a more amenable spirit toward the project. A few days ago he asked \$100,000 for that privilege; now he is willing to welcome the Skeeters

#### Major Leaguers Worried.

Most of the major leaguers appeared a trifle worried over the Brooklyn invasion especially when it was reported to ther that Gilmore was in such a playful mo when he landed the big "bread winners when he landed the big "bread winners." I wouldn't compromise with organized baseball for \$5,900,000," said the president of the Federals. "If there ever is any compromise, it will be at our terms. We have no ill will toward anybody in the game, but we have enough money to go independent of organized baseball and the national commission." national commission.

Several changes of importance were made at the meeting of the joint rules committee of the National and American Leagues today. The coach came in for a wallep, when it was decided that no one on the side line be permitted to touch any runner. The rule against coaching a player be-

fore he reaches first base will be more stringent than ever. No more can a batter put himself in the way of a pitched ball in order to get a base by being hit. If it is apparent to the umpire that the suspended by the fraternity until he is batsman purposely is hit, he will be derestored again to good standing by becoming a member of the team from which he deserted. By the same by-laws be no penalty on a pitcher who purposely in the same by-laws be no penalty on a pitcher who purposely in the same by-laws.
